

Get well soon

Gute Besserungslied an die Erde und Menschheitsfamilie

**I hope your woe's getting well
and that it doesn't swell too much
and may the fact, that we fell
cause no pain like hell.**

**I hope your woe's getting better
and that it doesn't matter too much
that we're a little bit slow
wherever we go.**

Get well soon

get well soon!

It's no wish for the moon

when I croon:

Get well soon

get well soon!

**I pray you're over the moon
about your getting-well-soon!**

**I hope we people get wise
and that the light will rise in us
so we don't have to disguise
our face and lies.**

**I wish we're all getting happy
without a mouth-nose nappy at last
and may our mind get a blow
to get the whole show.**

Get well soon

get well soon!

It's no wish for the moon

when I croon:

Get well soon

get well soon!

I pray you're over the moon

about your getting-well-soon!
